## Sunshine, Service &amp; Time Savers!

As we welcome the month of May, we're shifting gears from heating season to cooling season—and that means it's time to make sure your home is ready for the warmer months ahead! At Time Savers Heating & Cooling, we know how important it is to keep your family comfortable year-round, and spring is the perfect time to prepare your system for summer.

This month, we're focusing on a few key areas:

- **Seasonal Maintenance** – A tune-up now can prevent breakdowns during the peak of summer and help your system run at its best. We'll share why spring maintenance is a smart move and what to expect during a visit from our friendly, professional techs.

- **Energy-Saving Tips** – Keeping cool doesn't have to mean higher energy bills! We'll offer simple tips to make your home more energy-efficient, from thermostat settings to airflow tricks you can do yourself.
- **Pro Tips for a Cool Summer** – We'll also share simple steps you can take now to help your system run more efficiently all season long, potentially lowering your energy bills and extending the life of your unit.

Whether we're working in your home or seeing you out and about in the community, our team is proud to serve with honesty, reliability, and top-notch service.

## Spring Snapshots: Highlights from April

April brought a wonderful mix of celebration, connection, and creativity. Here's a closer look at the highlights from the month:

**WHAMM Awards Banquet:** We kicked off the month by honoring the hard work and dedication of our outstanding team and community members at the WHAMM Awards. It was an inspiring evening filled with laughter, applause, and well-earned recognition for those who continue to go above and beyond. Congratulations to all of the nominees and winners! We are incredibly thankful to our customers and supporters for giving us the opportunity to be apart of such a wonderful community!

**Loveland Brew Crew 2025:** Brew Crew came to a close on April 19th after an energizing two months! This series was all about bringing people together to support local businesses, share great conversations, and strengthen community bonds. We hope you were able to get your cards stamped and collect your prize from LMRCA! A big thank you to everyone who showed up, connected, and made each week something to look forward to—we're grateful for your presence and participation.

**Adult Egg Scramble:** Miami Townships Adult Egg Scramble proved that fun has no age limit! Participants dashed, dove, and laughed their way through the hunt, uncovering eggs packed with exciting prizes. It was a lighthearted way to celebrate spring and build community spirit. Thanks to everyone who joined the fun, and congratulations to the winner of our prize giveaway — Ramiro C!

**Discover Loveland Gift Card Program:** In our continued effort to support and uplift our local businesses, we've enrolled in the Discover Loveland Gift Card Program. This program allows you to purchase a gift card that supports local businesses in Loveland, helping to keep money circulating within our community. It's a great way to give the gift of local experiences while supporting small businesses like ours. We are proud to be a part of this initiative and encourage everyone to participate in supporting Loveland's vibrant business community.

# Time Savers Heating and Cooling Supports Loveland High School with \$20,000 Donation to the Steve Kenyon Outdoor Classroom

At Time Savers Heating and Cooling, we believe in the power of community and the importance of investing in future generations. That's why we are incredibly proud to have donated \$20,000 to Loveland High School's Steve Kenyon Outdoor Classroom project. This donation is part of our ongoing commitment to support local education and provide students with the best possible learning experiences.

The Steve Kenyon Outdoor Classroom is designed to enhance educational opportunities for Loveland students, and we're excited to contribute to a space where they can learn, grow, and connect with nature. By supporting this initiative, we hope to inspire future leaders and provide a lasting impact on the Loveland community for years to come.

We are honored to be part of such a meaningful project and look forward to seeing how this outdoor classroom will enrich the educational experience for students at Loveland High School.

## Customer Highlight: A First-Class Experience with Time Savers Heating and Cooling

We recently had the pleasure of assisting a first-time customer with an AC repair, and their experience with Time Savers Heating and Cooling was outstanding. Here's what they had to say:

"First time working with Time Savers. Excellent experience across the board. Doug and team were super knowledgeable, very easy to work with and able to fix my AC same day. Special shout out to Seth. Not only did he do a fantastic job, he took the time to answer all of my questions and was an absolute pleasure to work with. Highly recommend!! Thank you Time Savers!!" - Jason S.

May

## Upcoming Events

- **Loveland Food Truck Rally:** May 10<sup>th</sup> 12-8p  
@ Shoppers Haven Plaza - Join us or the 12th Annual Loveland Food Truck Rally! This family-friendly event is free to attend and features a diverse lineup of food trucks, live entertainment, and a variety of beverages. Enjoy a lively parade, vibrant live music, delicious festival foods, a bustling Makers Market, and family-friendly activities like the Big Six Wheel and dunking booth.

## May HVAC Tip: Don't Skip Your Pre-Summer AC Maintenance

If you haven't already scheduled your air conditioner maintenance this year, now is the ideal time to do it! As temperatures climb and we head into the warmer months, your AC system will soon be working overtime to keep your home cool and comfortable. A professional tune-up in May helps ensure your system is running efficiently, safely, and reliably—before the summer heat really settles in.

During a maintenance visit, our technicians inspect and clean key components like the coils, blower, and condenser, check refrigerant levels, tighten electrical connections, test the thermostat, and ensure airflow is balanced throughout your home. These detailed checks help prevent surprise breakdowns, extend the lifespan of your system, and improve energy efficiency—which means lower utility bills for you.

Even if your system seems to be running fine, regular preventative maintenance is one of the best ways to catch small issues before they become expensive repairs. Plus, manufacturers often require annual service to keep your warranty valid.

Avoid the peak-season rush and the stress of a mid-summer AC failure—give Time Savers a call today and get your maintenance scheduled. A little attention now goes a long way toward a cool, comfortable, and worry-free summer.
